Pam,

I see that, as of this morning, West Ridge 4th quarter water monitoring data is still in the pipeline (original notification was made on Feb 5th via email below).

Should I be coordinating directly with Steve Fluke about this? Since this is the first time that I've been directly responsible for notifying the Division about water monitoring submittals, I'm not sure if I've missed out on exactly what I should be doing, and I just want to make sure that things are covered!

Thank you --
Karla

Subject: UtahAmerican facilities -- 4th Quarter 2006 water monitoring

Pam,

If I understand correctly, as a consultant to UtahAmerican Energy, Inc. (UEI), I now have the authority to notify the Division on UEI's behalf when water monitoring information is in the UDOGM database pipeline and is acceptable for submittal. This email is to notify you that 4th quarter, 2006 water monitoring data is in and ready to be uploaded for these three UEI facilities:

Wildcat Loadout C/007/033

Centennial Mines C/007/019

West Ridge Resources C/007/042

Please let me know if you or the assigned hydrologists have any questions about this submittal.

Thanks!
